PUBLIC NOTICE

U.S. ARMY CORPS OF ENGINEERS LOS ANGELES DISTRICT

BUILDING STRONG®

May 5, 2015

RECORD OF DECISION

The U.S. Army Corps of Engineers, Los Angeles District, Regulatory Division, North Coast Branch has completed a Record of Decision (ROD) for a Final Environmental Impact Statement (EIS).

The document can be viewed at the link below:

<http://www.spl.usace.army.mil/Media/PublicNotices/RegulatoryPublicNotices.aspx>

The Final EIS can be viewed at the link below:

http://www.portoflosangeles.org/idx_environment.asp

Project Name: Berths 212-224 Yusen Terminals, Inc. [YTI] Container Terminal Project

Corps File No.: SPL-2013-00113-TS

Waterbody: Los Angeles Harbor, Port of Los Angeles

City and County: Los Angeles

Mailing Lists: General, Coastal, Los Angeles County, Port of Los Angeles, Port of Long Beach

The Corps Regulatory Division is required to make the ROD available to the public, Federal, state, and local agencies, American Indian tribes, and other interested parties. The ROD provides the Corps analysis of impacts, public interest review and statement of findings as to the Project's compliance with the Corps Regulatory Program regulations and NEPA, and our permit decision.

The Corps Regulatory Program evaluates permit applications for most construction activities that occur in the nation's lakes, rivers, streams, oceans, harbors and wetlands.

Please contact Theresa Stevens, Ph.D., Senior Project Manager at 805-585-2146 or via email at theresa.stevens@usace.army.mil with any questions or comments regarding this matter.

Regulatory Program Goals:

- To provide strong protection of the nation's aquatic environment, including wetlands.
- To ensure the Corps provides the regulated public with fair and reasonable decisions.
- To enhance the efficiency of the Corps' administration of its regulatory program.
