

RIPARIAN VEGETATION

Mapped, edited, and published by the USACE ERDC Cold Regions Research & Engineering Laboratory.

This map of riparian wetlands and waters of the United States was created using low-elevation, stereoscopic, true-color aerial photographs taken at a 1":400' scale in 1999 and field verified in early 2000.

The projection and datum of the map is Universal Transverse Mercator (UTM), zone 11 1983 North American Datum

Produced on May 7, 2001.

LEGEND

Wetland Creation/Restoration Sites	Sandbar Willow
Floodplain Sage Scrub	Eucalyptus
Chamise-Sage Scrub	Sugarbush
Annual Grassland	Giant Cane (Arundo)
Coast Live Oak Savanna	Coast Live Oak Woodland
Ruderal	Coast Live Oak Forest
Southern Coastal Salt Marsh	Canyon Live Oak Forest
Coastal Freshwater Marsh	Bigcone Spruce-Canyon Live Oak Forest
Riparian Herb	Open Water
Southern Willow Scrub	Fluctuating Shorelines
Mulefat Scrub	Spreading Grounds and Detention Basins
Southern Sycamore Riparian Woodland	Perennial Rivers and Streams
Southern Coast Live Oak Riparian Forest	Intermittent Streams and Creeks
Southern Arroyo Willow Forest	Ephemeral Drainages and Washes
White Alder Riparian Forest	Flood Control Channels
Canyon Live Oak Ravine Forest	First and Second Order Streams
