

# SPECIAL PUBLIC NOTICE

**U.S. ARMY CORPS OF ENGINEERS  
LOS ANGELES DISTRICT**

**BUILDING STRONG®**

---

**Notice of Complete Application Workshop  
September 12, 2018**

---

The U.S. Army Corps of Engineers, Los Angeles District, Regulatory Division, South Coast Branch (Corps) is hosting a 'Complete Application' workshop on Monday, September 24, 2018. The workshop will occur in the City of San Diego's MOC II facility's auditorium space at 9192 Topaz Way. The event will run from approximately 1:00 p.m. to 3:00 p.m. If you plan to attend, please RSVP to [splregcbad@usace.army.mil](mailto:splregcbad@usace.army.mil)

The Corps plans to cover what constitutes a complete Nationwide Permit Pre-Construction Notification form and ENG 4345, Standard Individual Permit Application form. The purpose of the workshop is to identify information that must be submitted to ensure minimal delays in our application review. Specifically, the requirements for a complete application, including necessary details and project drawings, will be discussed.

A conference line will be available for those unable to attend in person. Please RSVP and a copy of the presentation, as well as call-in information, will be e-mailed to you.

For additional information please contact Michael LaDouceur of my staff via e-mail at [michael.a.ladouceur@usace.army.mil](mailto:michael.a.ladouceur@usace.army.mil). This public notice is issued by the South Coast Branch Chief, Los Angeles District.

*Regulatory Program Goals:*

- To provide strong protection of the nation's aquatic environment, including wetlands.
- To ensure the Corps provides the regulated public with fair and reasonable decisions.
- To enhance the efficiency of the Corps' administration of its regulatory program.
