

# Los Angeles River Watercourse – Headworks Investigations

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG.

**LOCATION AND DESCRIPTION:** The study site is located in the Southeastern portion of the San Fernando Valley, adjacent to the Los Angeles River in the City of Los Angeles, California, and encompasses a total study area of approximately 43 acres. The study will provide ecosystem restoration through creation of riparian and wetland habitat to result in a multi-objective project that includes improved water quality and passive recreation, in conjunction with a water storage tank construction project underway by the local sponsor, the City of Los Angeles Department of Water and Power

**AUTHORIZATION:** Senate Resolution, 25 Jun 69 (LACDA).

**ACTIVITIES FOR FY 2020:** The Feasibility study was officially closed out on 10 June 2019.

**FY21 PLANNED ACCOMPLISHMENTS:** None.

**ISSUES AND OTHER INFORMATION:** The Feasibility study was converted to the Continuing Authorities Program (CAP), Section 1135 in 2017.

**CONGRESSIONAL INTEREST:** Congressman Gomez (CA-34), Roybal-Allard (CA-40), Schiff (CA-28)

As of: 1 Feb 20
