

Pismo Beach, CA

CAP Section 103

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG.

LOCATION AND DESCRIPTION:

The study area is situated within the upper reach of San Luis Bay, which is a hook-shaped shoreline that extends south, from Port San Luis to the County line for about 21 miles. Six sites in Pismo Beach were identified as chronically erosional and at each site continuous bluff recession has jeopardized existing street rights-of-way, infrastructure, and other public improvements. Due to the statutory CAP Section 103 funding limits and the City's emergency work, the proposed project has been narrowed to one critical erosion site: the St. Andrews sewer lift station. A sculpted seawall protection measure was instituted at the base of the bluff. This was done to stabilize from long-term ocean derived erosion.

As of 12 Feb 2020

AUTHORIZATION:

P.L. 87-874 - Rivers and Harbors Act of 1962/Flood Control Act of 1962. CAP Section 103 Limit is \$5M (WRDA 07).

ACTIVITIES FOR FY 2020:

Carry over funds will be used complete construction and close-out.

FY 2021 PLANNED ACCOMPLISHMENTS:

None.

ISSUES AND OTHER INFORMATION:

The Los Angeles District completed the draft Detailed Project Report (DPR), and initiated the Agency Technical Review (ATR) in April 2011. Project Preconstruction, Engineering and Design were scheduled to begin at the end of FY11, but finalization of the Detail Project Report (DPR) and preparation of a Project Partnership Agreement (PPA) were stalled due to the California Coastal Commission (CCC) objections to the Corp's consistency determination.

A revised plan for St. Andrew's site was approved by the California Coastal Commission in December 2013. The DPR was approved in Nov 2014. The PPA was executed on Jun 12, 2015.

A delay in the project was due to only receiving one bid for the design-build contract. As a result, it was decided that design and construction contracts be awarded separately.

CONGRESSIONAL INTEREST:

Carbajal (CA-24).

FINANCIAL SUMMARY:

D&I

Estimated Federal Cost	3,411,000
Estimated Non-Federal Cost	1,837,000
Total Estimated Project Cost	5,248,000
Allocation thru FY19	4,400,000
Allocation for FY 20	0
President's Budget for FY 21	0
House Report for FY 21	0
Senate Report for FY 21	0
Balance to Complete After FY 21	0
