

Tujunga Wash Environmental Restoration, CA

CAP Section 1135

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG.

LOCATION AND DESCRIPTION:

Tujunga Wash is located in the San Fernando Valley, CA with headwaters in the San Gabriel Mountains. It is a major tributary of the Los Angeles River. The project created a naturalized stream course along the west bank of a 3/4 mile reach of the Tujunga Wash. The project restored riparian ecosystem along 3,000 feet on both sides of Tujunga Wash channel below Hansen Dam. The wash extended similar habitat built by LA County and Mountains Recreation and Conservation Authority just downstream. Water was routed from Pacoima West into a natural stream course that meanders through the project area along the bank.

25 Mar 21

AUTHORIZATION:

WRDA of 1986, Section 1135, as amended.

ACTIVITIES FOR FY 2021:

None. Project was completed in 2012 and monitoring and adaptive management was completed in 2018.
