

Santa Clara River Watershed Feasibility Study
Real Canyon
3/6/08

- Unnamed crossing 23A – Downstream confluence with SCR looking downstream

- Unnamed crossing 23A – Downstream confluence with SCR looking upstream

Santa Clara River Watershed Feasibility Study

Real Canyon

3/6/08

- Howe Road – Downstream of crossing at beginning of concrete channel looking upstream

- Howe Road – Downstream of crossing looking upstream

Santa Clara River Watershed Feasibility Study

Real Canyon

3/6/08

- Howe Road – Upstream of channel looking downstream

- Highway 126 – Downstream side of bridge looking upstream

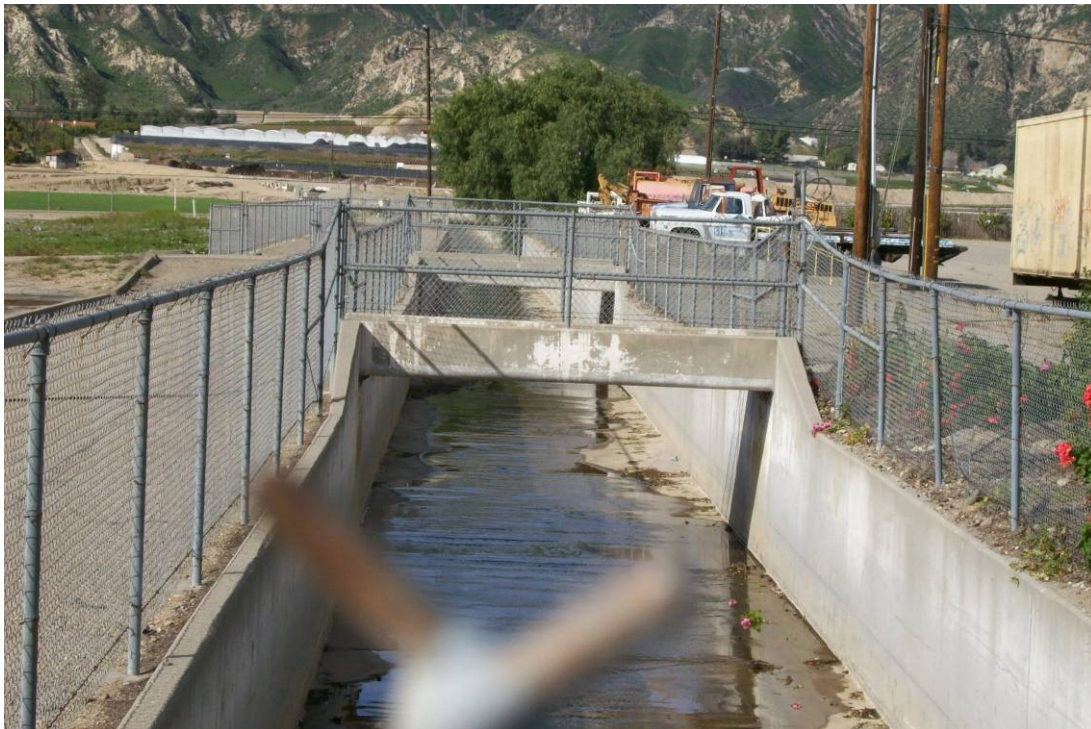

- Highway 126 – Upstream side of bridge looking downstream

Santa Clara River Watershed Feasibility Study
Real Canyon
3/6/08

- Unnamed crossing 23D – Downstream side of crossing looking upstream

- Unnamed crossing 23E – Downstream side of crossing looking upstream

Santa Clara River Watershed Feasibility Study

Real Canyon

3/6/08

- Unnamed crossing 23F – Downstream side of slab looking upstream

- Pacific Avenue – Downstream side of crossing looking upstream

Santa Clara River Watershed Feasibility Study
Real Canyon
3/6/08

- Railroad crossing (West Branch) – Downstream side of RR looking upstream

- Railroad crossing (West Branch) – Upstream side of RR looking downstream

Santa Clara River Watershed Feasibility Study

Real Canyon

3/6/08

- Railroad crossing (West Branch) – Upstream side of crossing looking upstream

- Camulos Street (West Branch) – Downstream side of culvert looking upstream

- Camulos Street (West Branch) – Upstream side of culvert looking downstream

Santa Clara River Watershed Feasibility Study
Real Canyon
3/6/08

- Camulos Street (West Branch) – Upstream side of culvert looking upstream

Santa Clara River Watershed Feasibility Study
Real Canyon
3/6/08

- Center Street (West Branch) – Downstream of crossing looking upstream

- Center Street (West Branch) – Downstream of crossing looking downstream

Santa Clara River Watershed Feasibility Study
Real Canyon
3/6/08

- Center Street (West Branch) – Upstream of culvert looking downstream

- Center Street (West Branch) – Upstream of culvert looking upstream

Santa Clara River Watershed Feasibility Study

Real Canyon

3/6/08

- Debris basin west – Spillway of debris basin looking upstream

- Debris basin west – Spillway of debris basin looking downstream

Santa Clara River Watershed Feasibility Study
Real Canyon
3/6/08

- Debris basin west – Debris basin looking east

- Debris basin west – Debris basin looking east

Santa Clara River Watershed Feasibility Study

Real Canyon

3/6/08

- Unnamed crossing 23J (East Branch) – Upstream side of crossing looking downstream

- Unnamed crossing 23J (East Branch) – Upstream of crossing looking upstream

- Camulos Street (East Branch)– Upstream side of crossing looking downstream

- Camulos Street (East Branch) – Upstream of crossing looking upstream

Santa Clara River Watershed Feasibility Study
Real Canyon
3/6/08

- Camulos Street (East Branch) – Downstream of crossing looking upstream

- Camulos Street (East Branch) – Downstream of crossing looking downstream

- Center Street (East Branch) – Downstream side of crossing looking upstream

- Center Street (East Branch) – Downstream of crossing looking downstream

- Center Street (East Branch) – Upstream of crossing looking downstream

- Unnamed crossing 23M (East Branch) – Upstream of crossing looking downstream

- Downstream Debris Basin east – Downstream of debris basin looking upstream
