

# PUBLIC NOTICE

Los Angeles River Channel Chevron Pipeline Monitoring Station Installation

**U.S. ARMY CORPS OF ENGINEERS  
LOS ANGELES DISTRICT**

**BUILDING STRONG®**

**Public Notice No.:** SPL-408-PN-2019-0022

**Permit No.:** SPL-408-2019-0022

**Comment Period:** 2019-09-24 to 2019-10-23

---

**Requester:** In compliance with U.S.C. Title 33, Chapter 9, Subchapter 1, Section 408, the Chevron Pipeline Company, as operator for Chevron USA, Inc., has requested permission from the U.S. Army Corps of Engineers (USACE) to alter the Los Angeles River Channel.

**Location:**

The proposed action would install one Cathodic Test Station to a Chevron pipeline(s) located within the concrete channel of the Los Angeles River in the City of Southgate, Los Angeles County, California. The proposed features are in-river, which will require construction within the channel.

**Requester's Proposed Action:**

The Chevron Pipeline Company is proposing to excavate a shallow trench within the grouted rock levee of Los Angeles River, attach two monitoring wires to the existing pipeline casings, excavate a shallow trench from the pipeline casing up the slope of the levee, and install one pipeline corrosion monitoring device terminating inside one flush mounted monitoring station cap on the westerly edge of the existing bike path on top of the levee. The purpose of the project is to comply with the State of California regulations to monitor the corrosion levels of Chevron pipelines. Installation of the cathodic test station is needed to monitor the corrosion level for the continued safety and integrity of Chevron pipelines.

**Authority:** The authority to grant permission for temporary or permanent use, occupation or alteration of any USACE Civil Works project is contained in Section 14 of the Rivers and Harbors Act of 1899, as amended, codified at 33 USC 408 ("Section 408"). Section 408 authorizes the Secretary of the Army, on the recommendation of the Chief of Engineers, to grant permission for the alteration or occupation or use of a USACE project if the Secretary determines that the activity will not be injurious to the public interest and will not impair the usefulness of the project. The Secretary of Army's authority under Section 408 has been delegated to the USACE, the Chief of Engineers. The Chief of Engineers has further delegated the authority to the USACE, Directorate of Civil Works and Division and District Engineers, depending upon the nature of the activity.

**Limits of Section 408 Authority:** A requester has the responsibility to acquire all other permissions or authorizations required by federal, state, and local laws or regulations, including any required permits from the USACE Regulatory Program under Section 10 of the

Rivers and Harbors Act of 1899 (33 USC 403), Section 404 of the Clean Water Act (33 USC Section 1344), and/or Section 103 of the Marine Protection, Research and Sanctuaries Act of 1972 (33 USC 1413). In addition, an approval under Section 408 does not grant any property rights or exclusive privileges nor does it authorize any injury to the property or rights of others.

**Consideration of Comments:** The Corps is soliciting comments from the public, Federal, State and local agencies and officials, and other interested parties. Comments will be made part of the record, and they will be considered before permission is granted to proceed with this action. Please limit comments to the area of the alteration and those adjacent areas that would be directly or indirectly affected by the alteration described in this public notice.

**Submission of Comments:** Interested parties may submit, in writing, any comments concerning this proposal. Comments should reference public notice no. SPL-408-PN-2019-0022 and be forwarded by the comment due date of October 23, 2019. Comments must be sent to the U.S. Army Corps of Engineers, Los Angeles District, Engineering Division, ATTN: Priyo Majumdar, 915 Wilshire Boulevard, Suite 930, Los Angeles, California 90017-3409. Alternatively, comments can be sent electronically to [Priyodarshi.Majumdar@usace.army.mil](mailto:Priyodarshi.Majumdar@usace.army.mil).
