

## PUBLIC NOTICE

---

Cucamonga Creek Channel State Route 60 Bridge Widening

**U.S. ARMY CORPS OF ENGINEERS  
LOS ANGELES DISTRICT**

**BUILDING STRONG®**

**Public Notice No.:** SPL-408-PN-2020-0001

**Permit No.:** SPL-408-2020-0001

**Comment Period:** 2020-01-06 to 2020-02-05

---

**Requester:** In compliance with U.S.C. Title 33, Chapter 9, Subchapter 1, Section 408, State of California, Department of Transportation (Caltrans) District 8, through the San Bernardino County, has requested permission from the U.S. Army Corps of Engineers (USACE) to alter the Cucamonga Creek Channel.

**Location:**

The proposed action would widen the existing State Route 60 Bridge over Cucamonga Creek Channel in the City of Ontario, San Bernardino County, California. The proposed features are in-river, which will require construction within the channel.

**Requester's Proposed Action:**

Caltrans is proposing to widen the existing Cucamonga Creek Bridge (Bridge No. 54-0840) on State Route 60 by approximately additional 13 feet 9 inches. The bridge would be widened on the south side, which would require building pier footings on the south side along the existing channel wall at existing piers 2 and 3, and removal of approximately 10 feet of channel bottom width and approximately 15 feet 10 inches of channel side wall to install new foundations. Water diversion would be required for this work as well. The purpose of the project is to improve the operational efficiency of State Route 60. Widening of the bridge is needed to accommodate the addition of 12 foot auxiliary lane to be built on East Bound State Route 60.

**Authority:** The authority to grant permission for temporary or permanent use, occupation or alteration of any USACE Civil Works project is contained in Section 14 of the Rivers and Harbors Act of 1899, as amended, codified at 33 USC 408 ("Section 408"). Section 408 authorizes the Secretary of the Army, on the recommendation of the Chief of Engineers, to grant permission for the alteration or occupation or use of a USACE project if the Secretary determines that the activity will not be injurious to the public interest and will not impair the usefulness of the project. The Secretary of Army's authority under Section 408 has been delegated to the USACE, the Chief of Engineers. The Chief of Engineers has further delegated the authority to the USACE, Directorate of Civil Works and Division and District Engineers, depending upon the nature of the activity.

**Limits of Section 408 Authority:** A requester has the responsibility to acquire all other permissions or authorizations required by federal, state, and local laws or regulations, including any required permits from the USACE Regulatory Program under Section 10 of the Rivers and Harbors Act of 1899 (33 USC 403), Section 404 of the Clean Water Act (33 USC Section 1344), and/or Section 103 of the Marine Protection, Research and Sanctuaries Act of 1972 (33 USC 1413). The compliance determination for any Section 10/404/103 permit decision associated with the proposed alteration will also address the Section 408 compliance determination. In addition, an approval under Section 408 does not grant any property rights or exclusive privileges nor does it authorize any injury to the property or rights of others.

**Consideration of Comments:** The Corps is soliciting comments from the public, Federal, State and local agencies and officials, and other interested parties. Comments will be made part of the record, and they will be considered before permission is granted to proceed with this action. Please limit comments to the area of the alteration and those adjacent areas that would be directly or indirectly affected by the alteration described in this public notice.

**Submission of Comments:** Interested parties may submit, in writing, any comments concerning this proposal. Comments should reference public notice no. SPL-408-PN-2020-0001 and be forwarded by the comment due date of February 5, 2020. Comments must be sent to the U.S. Army Corps of Engineers, Los Angeles District, Engineering Division, ATTN: Priyo Majumdar, 915 Wilshire Boulevard, Suite 930, Los Angeles, California 90017-3409. Alternatively, comments can be sent electronically to [Priyodarshi.Majumdar@usace.army.mil](mailto:Priyodarshi.Majumdar@usace.army.mil).
