

PUBLIC NOTICE

Salt River - Rio Salado Habitat Alternative Water Supply Project

**U.S. ARMY CORPS OF ENGINEERS
LOS ANGELES DISTRICT**

BUILDING STRONG®

Public Notice No.: SPL-408-PN-2020-0020

Permit No.: SPL-408-2020-0020

Comment Period: 2020-04-29 to 2020-05-28

Requester: In compliance with U.S.C. Title 33, Chapter 9, Subchapter 1, Section 408, City of Phoenix, Park and Recreation Department has requested permission from the U.S. Army Corps of Engineers (USACE) to alter Salt River Channel.

Location:

The proposed action would construct a water supply line to discharge into the Rio Salado Central Avenue Reservoir below the reservoir liquid surface level in the city of Phoenix, Maricopa County, Arizona. The proposed features are not inside the channel, and will therefore not require construction within the channel.

Requester's Proposed Action:

City of Phoenix, Park and Recreation Department is proposing to install a water supply line to discharge into the Rio Salado Central Avenue Reservoir below the reservoir liquid surface level. The work will require a new penetration through the concrete reservoir wall, to be done by coring a new hole through the wall approximately 6 inches below the ground surface as to not disturb the existing HDPE reservoir liner. Construction staging will be located along the west side of Central Avenue and within the parking lot of the Habitat.

The purpose of the project is to provide a surface water back up to the existing ground water wells. This backup source is needed to maintain water to the habitat during future well repair or replacement, or in the case of sudden, catastrophic well failure.

Authority: The authority to grant permission for temporary or permanent use, occupation or alteration of any USACE Civil Works project is contained in Section 14 of the Rivers and Harbors Act of 1899, as amended, codified at 33 USC 408 ("Section 408"). Section 408 authorizes the Secretary of the Army, on the recommendation of the Chief of Engineers, to grant permission for the alteration or occupation or use of a USACE project if the Secretary determines that the activity will not be injurious to the public interest and will not impair the usefulness of the project. The Secretary of Army's authority under Section 408 has been delegated to the USACE, the Chief of Engineers. The Chief of Engineers has further delegated the authority to the USACE, Directorate of Civil Works and Division and District Engineers, depending upon the nature of the activity.

Limits of Section 408 Authority: A requester has the responsibility to acquire all other permissions or authorizations required by federal, state, and local laws or regulations, including any required permits from the USACE Regulatory Program under Section 10 of the Rivers and Harbors Act of 1899 (33 USC 403), Section 404 of the Clean Water Act (33 USC Section 1344), and/or Section 103 of the Marine Protection, Research and Sanctuaries Act of 1972 (33 USC 1413). In addition, an approval under Section 408 does not grant any property rights or exclusive privileges nor does it authorize any injury to the property or rights of others.

Consideration of Comments: The Corps is soliciting comments from the public, Federal, State and local agencies and officials, and other interested parties. Comments will be made part of the record, and they will be considered before permission is granted to proceed with this action. Please limit comments to the area of the alteration and those adjacent areas that would be directly or indirectly affected by the alteration described in this public notice.

Submission of Comments: Interested parties may submit, in writing, any comments concerning this proposal. Comments should reference public notice no. SPL-408-PN-2020-0020 and be forwarded by the comment due date of May 28, 2020. Comments must be sent to the U.S. Army Corps of Engineers, Los Angeles District, Engineering Division, ATTN: Priyo Majumdar, 915 Wilshire Boulevard, Suite 930, Los Angeles, California 90017-3409. Alternatively, comments can be sent electronically to Priyodarshi.Majumdar@usace.army.mil.
