

PUBLIC NOTICE

Los Angeles River Sediment &
Vegetation Removal Project

**U.S. ARMY CORPS OF ENGINEERS
LOS ANGELES DISTRICT**

BUILDING STRONG®

Public Notice No.: SPL-2021-003-JN

Permit No.: SPL-2021-003-JN

Comment Period: 2021-08-30 to 2021-09-29

Requester: Operations Division, Los Angeles Corps of Engineers.

Location:

The proposed project area is located within Reach 4A of Los Angeles River, situated between Station 314+00 and 293+00. See Figure 1.

Requester's Proposed Action:

This specific project will consist of clean excavation of a portion of shoaled volume deposition of approximately 3,500 CY of sediment and vegetation which may include Arundo Rhizome, tree root debris as well as sediment, cobble stone and trash and other general debris materials found within the project location. The total estimated Rhizome and Sediment shoaled at 3 feet in deposition is 3,500 CY. The contractor in addition will remove 43 identified common native and/or non-native tree species to include removal of 43 tree stumps.

For the safety of the public, the Verdugo Wash trail between Flower Street and the Verdugo Wash confluence will be closed daily Monday through Friday from 7:30am to 4:30pm during operations.

Consideration of Comments: The Corps is soliciting comments from the public, Federal, State and local agencies and officials, and other interested parties. Comments will be made part of the record, and they will be considered before permission is granted to proceed with this action. Please limit comments to the area of the alteration and those adjacent areas that would be directly or indirectly affected by the alteration described in this public notice.
