III. Project Review and Determinations

a. Ventura Harbor Maintenance Dredging (Inner and Outer) (POC: Antal Szijj):

- i. EPA, RWQCB: Pyrethroids and PCB congeners should be added to the analyte list.
- ii. Corps:
 1. Plate 2: dredge unit (text) labels should be legible.
 2. Add north arrows to all figures.
 3. SAPs should describe how core samples will be archived.
- iii. EPA:
 1. Connecting channel SAP, task 1, page 2: clarify number of core samples.
 2. Add two new core locations (marked up figures attached).
 3. Table for dredging volumes includes area F, but text states area F won't be dredged. May need clarification.
- iv. Ventura: Harbor: one core was moved in response to Coast Keeper and Heal the Bay input (plate D5, upper right corner, area C).
- v. RWQCB, EPA, Corps, CCC: SAPs acceptable once above changes incorporated and revised documents submitted to agencies.

IV. Other issues:

a. Marina del Rey maintenance dredging (POC: Larry Smith):

- i. Recent discharge of rust-colored ballast water from barge:** agencies discussed issue. Larry Smith will send out dredger's response letter and also least tern monitor's monitoring report. Allan Ota will look into any issues with dredger's vessel general permit.
- ii. Brown pelican deaths** No one at meeting had information regarding Brown pelican deaths at MDR. DFG did not attend meeting and provided no additional information on the subject prior to the meeting.
